ADDRESS: MANDALUYONG CITY, NCR

Profile

A content editor moving to the tech world with a goal of making creative products that make the world better, I seek a full-stack developer role that combines my tech knowledge with my strengths in communication, leadership, and attention to detail.

Education

- Uplift Bootcamp

2025–2026

Full-Stack Development Course

Built a MERN stack application with user authentication and data persistence, utilizing Agile methodologies
- University of the Philippines

2010–2014

Bachelor in English Studies

Study the use of language in various contexts, applying analytical thinking and logic in research

Work Experiences

- PwC AC Manila

2021–present

Senior Associate 3

  - Quality assurance:** Led comprehensive checks on various reports, honing attention to detail and strong focus needed for debugging and ensuring quality
  - Team management:** Supervised a team, resulting in a strong 0% attrition for five years and counting
  - Business acumen:** Helped expand team capabilities, resulting in two new service offerings over my stint

C&E Publishing

2016–2018

Editorial Associate

  - Quality assurance:** Analyzed and removed errors in content, increasing manuscript accuracy and quality
  - Project management:** Coordinated with layout artists, authors, QA, and editors, leading to 100% on-time publication of textbooks
- ShoppersGuide Inc.

2018–2021

Editorial Supervisor

  - Quality assurance:** Conducted thorough checks on factual and grammatical accuracy of drafts
  - Team management:** Led a team of writers, editors, and researchers in a digital magazine, applying project management skills to ensure 100% adherence to the content roadmap
  - Optimization:** Applied various SEO techniques for article visibility and website optimization

Microsourcing Inc.

2014–2016

Operations Associate

  - Project management:** Dealt with various stakeholders to ensure smooth operations of staff on the production floors and prevent issues
